Maritimo

OCEANS APART

CONTEMPORARY STYLE MEETS INTELLIGENT LUXURY & PERFORMANCE

The Maritimo S-Series offers a sleek, low slung sedan exterior style ideal for height constricted waterways. The all-in-one interior layout is suited to those who prefer the bridge integrated on a single level with the lounge and entertaining area.

The hand crafted wood, fine leather and clever ergonomics combines effortlessly with the best in nautical design to ensure efficiency, comfort and cruisability.

When it's time for deep-water action you'll find Maritimo's racing edge more than meets the demands of the sports fisherman and high performance island-hopping adventure.

AFT GALLEY

Whether you're entertaining in the cockpit or saloon, the chef remains part of the conversation with Maritimo's aft galley arrangement and wide opening bi-fold doors. Fitted out with Miele appliances, including a full stand up dishwasher, speed oven, cook top with range hood and refrigerator with in-built ice maker, the aft galley will surprise and delight.

FULL BEAM MASTER CABIN

Every Maritimo S-Series motor yacht provides a full beam master cabin with king or queen size bed, ensuite and chaise lounge.

BI-FOLD DOORS

Unique bi-fold doors open up the whole living space in to one large entertaining area. Entertaining is a breeze with the galley as the centre of the action and the island bench doubling as a cocktail bar. For those cooler days or to access the cockpit while running, you only need open one port side door.

WIDE WALK AROUND DECKS

The walk around side decks of a Maritimo allow safe and easy access to the foredeck, perfect for children and pets. Whether you're pulling up a mooring, dropping anchor, tying up at a wharf, getting the lines and fenders ready, or for those who like to wet a line, you'll wonder how you ever managed without them.

EASY HANDLING AND BERTHING

Maritimo's ergonomic dashboards feature the latest large screen electronics and intuitively configured controls for easy handling. They can be fitted with optional docking thrusters to aid berthing and vessel control in tight confined canal type waterways or crowded marinas. Key engine controls are also replicated in the aft cockpit for simpler docking.

EFFICIENT RACE BRED SHAFT DRIVE

Smart, innovative, practical design lies at the heart of the Maritimo philosophy. Big ideas – such as the low angle race bred shaft drive and our patented hand laid super strong hull – ensure best-in-class efficiency and excellent sea going abilities. Instantly sighted fuel gauges and a simple, concise electrical panel layout, makes everyday boat management and long distance performance cruising straightforward and safe.
